

BlueKote® Universal Conduit
Elbow Form 8

T&B® Rigid Fittings

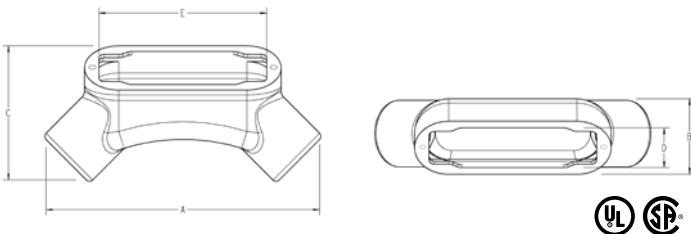

BlueKote® Universal Conduit Elbow Form 8

Replaces LU, LR, LB and C Conduit Bodies
4-to-1 SKU Reduction

In 2009 Thomas & Betts introduced the innovative LU Universal Elbow to reduce the number of parts you need to stock. It replaces LL, LR, LB and C conduit bodies. With LU, you no longer have to worry about having the right conduit body for the job.

As the name implies, the new solution truly goes anywhere a conduit elbow is needed. The T&B® Fitting BlueKote® Universal Conduit Elbow enables you to run fiber optic cable in a 3/4" system — and maintain cable bend radius — instead of a 2" system. The Universal Elbow represents huge savings for you in conduit, bodies and labor!

- 4-to-1 SKU reduction - replaces LL, LR, LB and C conduit bodies.
- Radius is the same as the bend conduit. Pull wire through the body
- Angled cover port - easier wire pulling and uses standard covers.
- BlueKote four-layer protection provides internal and external corrosion resistance
- Blue interior lets customers know it is a quality T&B product
- UL Listed as an enclosure - splices allowed inside the LU
- Rated for 40% wire fill - avoids conduit system de-rating

BlueKote® Universal Conduit Elbow								
Catalog Number	Hub Size	Dimensions						UPC Number
		A	B	C	D	E	Cu. In.	
LU18	1/2	6.15	1.25	2.74	1.05	3.28	4.80	786209-67329
